

# How Not to Backpack (Budget travel): Backpacking tips, tricks and stories based on years of doing things the wrong way

This book can save you \$100s, \$1000s or even your life! This book is about the really important parts of backpacking that people rarely give a thought to; the things that can turn someones dream holiday into the trip from hell. This book is here to prevent you being robbed, ripped off, lost, stuck, sick, confused, scared or in trouble. Pfft, I dont need that - Im an independent backpacker! Yeah, yeah, I know; youre an independent backpacker and dont need someone to tell you all this stuff. If I read the above I wouldnt buy this book either. Fortunately Ive only included useful things learnt from experience. This is the stuff that I chatted about with travellers every night in hostels and finally decided it needed to be written down; to help everyone out. Covering over 70 topics, this book has it all; from the necessary such as choosing hostels and what to pack, to the fun, like getting free drinks and how to have the best night out, to the zany such as a mind-bending experience with the hallucinogenic Peruvian medicine, Ayahuasca. Boring book full of information? Hell no it aint. Its written in a light-hearted way and full of funny stories of when things have gone terribly wrong, or awesomely right. People have even emailed me to say they embarrassed themselves on the bus from laughing too hard though they are probably just easily amused. Ill say no more; just read the first chapter for free and decide for yourself. Just click on the book to start reading. Warning: contains occasional coarse language. Author Bio: The author has spent over 1200 nights in hostels across 45+ countries in 6 continents and has done plenty wrong. Examples include getting lost in the Sahara desert, cutting halfway through his hand with a machete while hunting with indigenous Amerindians in Guyana, having a sword held to his throat and AK-47s pointed at him, nearly burning down a Filipino village, running

completely out of money numerous times, being denied check-in for an international flight, pooping himself in public etc. Still unconvinced? No problem - just download the free sample. There's nothing to lose, huh! Note, Amazon has different stores for different countries. If you're in any country other than the USA you'll need to go to your country's specific Amazon site to buy. Annoying I know. To do it, just click on the link in the green box at the right hand side of the screen next to the book title. Also note too, that if you don't have a Kindle, you can get a free program from Amazon to read the book on your phone, tablet, computer, Mac, etc.
