

## Glenn Brown: Three Exhibitions

A beautifully designed monograph surveying the career of artist Glenn Brown. Luxuriously filled with over 56 images, this book documents the bravura of Browns brushwork and his unique evocation of images. Recognized for his sheer, flat surfaces intricately described yet deprived of mass, whose ambiguity is heightened further when altering colors, forms, or details taken from such gestural artists as Frank Auerbach, Salvador Dali, Chiam Soutine, or Vincent Van Gogh Brown creates a carnivalesque world where the rational and irrational, the beautiful and the grotesque are brought together in a vigorous state of play.

Glenn Brown: Three Exhibitions. Gagosian Gallery. Texts by Michael Bracewell, David Freedberg, and Rochelle Steiner, 2009.
