

MCSD: Windows Architecture I Study Guide

Windows Architecture I exam is one of two core (required) exams for the Microsoft Certified Solutions Developer (MCSD) certification, part of the Microsoft Certified Professional (MCP) program. Unlike the MCSE series of tests, which targets system administrators and network engineers, this exam is targeted toward programmers. The WA I exam (#70-160) measures programmers ability to design, build, and implement business solutions by using Microsoft tools and technologies.
