

Czech Republic 1:100,000 Touring Atlas, spiral-bound, GPS-compatible

Czech Republic 1:100,000 Touring Atlas
Touring Atlas of the Czech Republic in an A4 (approximately letter size), spiral-bound format, 232 pages, with hiking and cycle routes, indexed street plans of 13 main cities, illustrated notes on the countrys UNESCO heritage sites, plus an extensive index. This atlas is based on a series of hiking maps and is suitable for driving, cycling and hiking. For hikers and cyclists the maps show numerous hiking trails and cycle routes, indicating, where appropriate, their waymarking and numbers. The scale enables to show every existing settlement and hamlet which makes the atlas also invaluable for family tree research. The maps have a UTM grid. The mapping has relief shading and numerous spot heights to present the topography. Indicated are wooded areas or orchards and vineyards. National parks and other protected areas are prominently marked. Road network includes local dirt roads and cart tracks and shows locations of gas stations and roadside accommodation, gradient markings, etc. Railways are shown with stations. A wide range of symbols highlight various facilities and places of interest: hotels, pensions, campsites, UNESCO heritage sites, museums and monuments, etc. Multilingual map legend includes English. Extensive index shows all localities with their postcodes. Also included is a distance table and brief multilingual notes (including English) on the countrys UNESCO World Heritage sites. Indexed street plans at 1:15,000 show the countrys 13 main cities. Each plan covers a whole page, with Prague and Brno spread over two pages. The plans show metro, bus and / or tram routes with stops and line numbers, one way streets, car parks, park+ride facilities, petrol stations, various places of interest, etc. This atlas is a masterpiece of Czech cartography and is rivalled only by the Hiking Atlas 1:50,000 by the same

publisher.

The Czech Republic is a friendly country, covered in forested hills, undulating .
