

THE LOIRE VALLEY: French Impressions

THE LOIRE VALLEY is the latest in a series of distinctive travel books. It takes our reader on a journey of discovery, looking at the culture and cuisine of a region, and how its history, landscape and location contributed to its difference from the rest of the country. THE LOIRE VALLEY is the result of a year-long stay in a beautiful area variously known as The Valley of the Kings and The Garden of France. The journey of discovery takes us on a four-hundred-mile trip alongside and on the biggest river in France. There are more than three hundred grand chateaux in the Valley, though the focus of the authors attention is on the last home and work place of Leonardo da Vinci, walks on the battlements of Richard the Lionhearts favourite castle and an underground search of modern troglodytes. And we also discover how and why frogs legs first became a delicacy in this part of France. Together with reviews of more than a hundred Loire-side towns and villages, THE LOIRE VALLEY contains dozens of recipes for well and little-known regional dishes. As the author says, the purpose and intention of the book and series was to entertain and inform readers about a particular region of a diverse and fascinating country.
