Chivalry may be on life support, but its still breathing in the words of Arthur Conan Doyle's *The White Company*. Although he is well known for his Sherlock Holmes stories, Doyle was most proud of creating the noble knight, Sir Nigel Loring of the White Company. This book is set in the tumultuous days of the 14th century, when the political struggles among England, France and Spain, and the Crusades in the Holy Land, created instability for peasant and noble alike. There are many heroes in the tale of knights and battles, but young Alleyne Edricson is the main protagonist. Sheltered in an abbey, where the orphaned lad was educated per his noble father's wishes, Alleyne is unwillingly shoved into the world for a period of a year, where he must decide whether he wishes to make his way there or return to a monastic life. It doesn't take long for Alleyne to meet with adventure. He is shocked to find the world is a rough and tumble place. But his straightforward and naive approach to life helps him out of some scrapes and endears him to some colorful characters who become his bosom companions. Together, they join the service of Sir Nigel, who is an unlikely hero with his bald head, bad eyesight and scrawny stature. That is, until he is able to prove himself in some small feat of arms, which is his favorite pastime. He is always victorious in these exhibitions of his knightly prowess, and he always has a kind word for the vanquished, his noble opponent. His motivation is always to defend the honor of his lovely wife, for whom he cherishes the greatest tenderness, although others wonder if this is due to his poor vision rather than any attractiveness on his lady's part. There are many satisfying battles and cliffhangers in this book. Sir Nigel plunges headlong into any opportunity for a fight. Alleyne becomes his squire and follows him to France, to fight for their Prince, Edward III, who wants to restore the vanquished king of

Spain.
