In Rolls-Royce, Koto Bolofu goes behind the scenes of a world-renowned iconic brand and symbol of all that is British, and examines in minute detail the making of the car that is the first choice of film stars and heads of state. Given carte blanche by Rolls-Royce, Koto documents the painstaking craftsmanship that goes into the creation of these superlative vehicles, beautifully portraying the use of technology in this state of the art manufacturing plant which still puts a heavy emphasis on artisan crafts. This visual diary pays tribute to Rolls-Royce and stays true to the words of Sir Henry Royce: Strive for perfection in everything you do. Bolofu's keen eye for detail and ability to see beyond the obvious captures the construction of these magnificent cars.
